

VERN LOVELADY
 Vern T. Lovelady, Storekeeper 1/c U.S.N.R. arrived Monday for 18 days' leave following 18 months Atlantic duty. At the conclusion of his visit with his parents, Mr. and Mrs. T. S. Lovelady, of 1617 Gramercy ave., he will be transferred to the South Pacific. Storekeeper Lovelady was graduated from Torrance high school with the class of summer '41.

Capt. Flynn In Third Year Of Service

Captain Thomas L. Flynn of Hurley, N. Y., has just celebrated his third anniversary of foreign service. He is stationed in France with the 302nd Transport Wing. A son of Mr. and Mrs. C. J. Flynn of 2417 Torrance blvd. the officer is married and has two children, Thomas, Jr., 15 and Kathleen 7. Mrs. Flynn and the children are at home in Hurley. Before entering service in 1940, Captain Flynn was a civil engineer with the New York Board of Water Supply. He attended Manhattan College where he majored in Civil Engineering.

AT GUNNERY SCHOOL
 Bob Shimnick is now attending Navy Aerial Gunnery school at Jacksonville, Fla.

NEW WATER DEPARTMENT WAREHOUSE . . . Housing work shops, storage areas for parts and equipment, the new Torrance Municipal Water District No. 1 warehouse, located at the pump house and reservoir north of Torrance blvd. and west of Crenshaw blvd., has been completed and occupied. It is the latest addition to Torrance civic buildings and cost approximately \$6500. (Torrance Herald photo.)

METROPOLITAN WATER IS FAVORED IN 50-6 VOTE AT WALTERIA MASS MEETING

Leading toward early formation of Torrance Water District No. 2, property owners attending a Friday night meeting at the Walteria School voted 50 to 6 for a system connected with the Metropolitan Water District. Six voted against the proposal. The motion read: "That in consideration of the formation of a water works district we consider only the Metropolitan Water District."

This would eliminate C. H. Quandt's system from the entire proceedings, against the advice of W. H. Stanger, Torrance Water District No. 1 manager, who attended the rally and expressed his views.

Stanger told the property owners that should the present operator retain even a small percentage of his clientele this would impair the sale of bonds and he felt it only fair to buy out the Quandt system at a fair price.

The water district manager said the new district could be operated at minimum cost for the reading of meters, maintenance of lines and a small amount of bookwork if the new system were connected with the Metropolitan. He suggested that three proposals be included on any balloting for issuance of bonds—an independent district with new pipes, purchase and improvement of the Quandt system or connection with Metropolitan.

The first step in creation of the district, the circulation of a petition, is now being taken. The next step will be to vote bonds at a municipal election.

Estimates indicate it would cost \$187,000 to purchase the existing system and improve it and about \$144,000 for any of the other two systems.

The assessed valuation of property in the proposed district is \$738,000 and the area embraces 2500 acres, including Zamparini Airport. The present system has more than 300 consumers. Another 100 may be anticipated. The present revenue is said to be around \$13,300 a year.

The property owners were told that under the new system the rate could be cut by about one-third.

HORSPOOL BACK . . . Recently returned to this country from the Pacific is Marine Warrant Officer William L. Horspool, 29, whose wife, the former Anna Lou Hunter, lives at 1819 Ca-brillo Ave., Torrance. Paymaster with a Fourth Marine Air Wing group, he was stationed in Hawaii, Samoa, the New Hebrides and Marshall Islands. Enlisting in the Marine Corps in January, 1935, he served in Shanghai before the war.

Government Ups Points on Fats and Oils

The Office of Price Administration Saturday raised the point value of lard, shortening and oils from 10 to 12 points a pound, effective at midnight that day.

Point values of butter and margarine remained unchanged at 24 points a pound for butter and 12 points a pound for margarine.

The increases became necessary, OPA explained, because the War Food Administration sharply reduced civilians' allocation of lard, shortening and oils for the third quarter in the face of a short world supply and large demand.

OPA said also that many areas reported an uneven distribution of these products for civilian use.

OPA explained that Saturday's action was intended to place all consumers—the food manufacturer, the restaurant operator and the household user—on approximately the same basis.
